Career Objective

Aspiring Data Scientist and Electronics & Telecommunication Engineering student with strong foundations in programming, data science, and machine learning. Passionate about solving real-world problems using AI/ML and seeking opportunities to contribute to innovative projects while enhancing technical expertise.

Education

B.Tech in Electronics & Telecommunication Engineering (ENTC)

Government College of Engineering, Yavatmal

- Currently pursuing 4th year (2022 – 2026)

12th Standard – CBSE Board (2022)

10th Standard – CBSE Board (2020)

Technical Skills

- Programming Languages: Python
- Libraries & Tools: Pandas, NumPy, Matplotlib, Scikit-Learn, TensorFlow, MySQL, SQL, Git, GitHub
- Domains: Data Science, Machine Learning (Basics), Large Language Models (LLMs)
- Other Skills: Problem-solving, Teamwork, Leadership

Projects

RAG-based AI Teaching Assistant

- Built an LLM-powered assistant using Whisper + FFmpeg for transcription and RAG for query answering.
- Applied chunking, embeddings, and vector similarity search; optimized storage with Pandas + Joblib.

California House Price Prediction

- Developed an ML model using Scikit-Learn to predict housing prices.
- Performed EDA, feature engineering, and regression modeling; evaluated with RMSE and MAE

Certifications

- Data Science and Machine Learning – CodeWithHarry
- Python – CodeWithHarry
- Soft Skills – NPTEL

Positions of Responsibility

- Class Representative (CR), Government College of Engineering, Yavatmal
